Cutter's Mate Demo

**Saturday May 16
11-3pm**

We are lucky enough to have the actual inventor of *Cutter's Mate* and *Beetle Bits System* come to our store on **May 16** to wow you with his state of the art cutting tools. You will be amazed how these tools will make your glass cutting easy and fun! Nothing is impossible to cut with the

Cutter's Mate. You will have the perfect score everytime. If it can be traced, it can be cut! The *Beetle Bits System* cuts straight lines perfect everytime! He will also show you the perfect circle cutter that is a must for everyone's workshop!

Pssst . . We will be offering special pricing on all of the tools he will be showing on **Saturday (May 16)** Great deals for these great tools! It will add magic to your glass cutting and make stained glass more exciting!

Classes

Summer is a busy time for everyone so our class schedule is a little light. If you would like to see a class put together, let us know what you have in mind. Who knows, maybe we can put our heads together and come up with a dynamite class that we haven't offered before!

HOURS: Mon-Fri 9-6, Thur 9-8, Sat 9-3.

Gigantic Garage Sale

Steve is the ultimate bargain hunter (hey, anything to give his customers a bargain!) and this time he has hit the mother lode! He came across a couple of huge workshops that made him a deal he couldn't refuse. He has a lot of used equipment, in good condition, that he is putting in the sale. We have all kinds of tools from grinders to saws to who knows what. He will also have a fantastic selection of art glass from Uroboros, Chicago Art, Bullseye, Lins and Schlitz glass on sale. Glass that you will never find anywhere else.

We have so many bargains that we will be open **Saturday (9:30 - 3pm), Sunday (12-3pm) and Monday 9-2pm.** Come early and bring the big truck!

Glass News!

What's new at The Glass House? Have you seen the beautiful 4" *Handblown Rondels* that are super in stained glass panels? They are perfect in cosmic designs or abstracts or even

Prairie style pieces.

Having trouble making certain cuts? Add a *Glass Goddess* to your workshop and you will have all the luck you need! (Well that is something I made up but she is a gem!) She is a glass face (6" x 7") that Steve is making and can be worked into your stained glass design or simply sit on your workbench and get inspired.

Looking for a project you can do in your smaller kiln? We have developed the *Votive Former* that will work in the 11" kilns, in fact you can do 2 Votives at one time. You can even use this in the 6" kilns! Just simply

cut a 4" square glass and slump over the *Votive Former*. It makes a beautiful candle votive and is easy to do! You can just pick a wild piece of glass and in no time you can make gifts for all of your friends! It was voted this year's Quick & Easy Project of 2009! (Don't tell anyone that Tracy and I are the only ones that voted!) We have *Plaid Glass Squares* that are perfect for these and you don't have to cut anything!

Fusers listen up! We have the new *Crinkle Dichroic* and the new *Dichroic Sizzle Sticks*. They are just simply fabulous!

Check out the new supply of *painted medallions*. They are beautiful and makes a quick and easy project. Just put a little glass around it and you have a really special gift that looks like you spent hours on. We also have *Rainforest Animal Tiles* that are easy to make into a beautiful panel with very little effort!

There is always something new at The Glass House!

DiamondCrete

Word on the street is that *DiamondCrete* is no longer available. Not to worry though, we were able to add to our stock to help you out. We are saddened by this news because it is the best thing to make stepping stones with. So come in and stock up while you can. Once it is gone, we can't replace it. Stepping stones are the perfect gift for someone who is hard to buy for! You can still do stepping stones with concrete but this is easier!

Check out the special we are running during the Garage Sale on *DiamondCrete*!
